Physician and Non-Physician Practitioner Time Study Implementation Plan

- Physician/practitioner costs incurred and reflected on the filed physician/practitioner cost report from which the interim supplemental payments are developed, but which would not be incurred or reflected on the physician/practitioner cost report for the spending year.

Such costs must be properly documented by the hospital and subject to review by DHCS and CMS. The result is the uninsured physician/practitioner costs to be used for interim SNCP payment purposes.

B. Support Allocated Costs by Approved Time Study

Because a time study must capture all activities that are specific to the participants' duties, activity/object codes must provide a complete and appropriate description of all activities and facilitate capturing 100 percent of the participants' time spent.

1. Activity/Object Codes

The following activity codes will be used to capture time spent for physician and non-physician practitioners claiming certified public expenditures (CPE) under SPA 05-023 and the waiver. Physician and non-physician practitioners that provide services at a DPH and/or at a facility for which a DPH is claiming CPE under SPA 05-023 and the waiver must complete a DHCS physician or non-physician practitioner time study, as applicable (see Appendices A-C) by documenting time spent on each of the following coded activities.

Activity/Object Code 00001 Direct Patient Care Services

Direct Patient Care Services are allowable activities that would be considered *professional* component costs under Medicare cost principles. Unreimbursed Direct Patient Care Medi-Cal services to Medi-Cal recipients would be eligible for payment under SPA 05-023, and unreimbursed Direct Patient Care uninsured care costs would be eligible for payment under the waiver as SNCP Physician/Practitioner CPEs.

Activity/Object Code 00002 Supervision and Training of Nurses, Technicians, etc.

Supervision and Training of Nurses, Technicians, etc., are allowable activities that would be includable as *provider* component costs under Medicare cost principles. Unreimbursed Medi-Cal services costs would be eligible to be claimed as hospital
